For home or business, save 26% with a solar tax credit.

How much do solar panels cost in Georgia?

On average, installing solar panels in Georgia costs about \$19,635 after taking into account the federal solar investment tax credit. That's roughly 17% more than the U.S. average of \$16,715. While solar panels in Georgia are relatively pricey, the savings over 25 years can add up to \$23,182. That can make it well worth going solar.

Can a 4KW Solar System be sold back to the grid?

Any excess solar energy generated by the 4kW system that is not used can be sold back to the grid. This means that homeowners can earn money for the extra electricity their solar system produces. With the current electricity costs, it is possible to achieve a 20% return on investment per year based on the panels' cost.

What is a 4KW Solar System?

These 4kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.
