

# Are there profitable photovoltaic panels

Are solar panels a good investment?

Installing solar panels at your home or business premises can reduce your carbon footprint and earn you money. Not only do solar PV systems cut your energy bills, they can also actually bring in profit through the government's incentive schemes. We use smart data so you can compare energy prices in less than a minute.

Are solar panels worth it?

If you live under a cloud of misery or have made a den using the pylons you reside in between, solar may not be worth it- maybe. However, normal shading can be mitigated and the amount of potential energy your panels generate increases by opting for a solar system that is designed for low-light conditions.

Why do solar panels cost so much?

The only additional cost factors are the upfront costs of installing a solar system and the fossil fuel electricity costs needed when solar doesn't cover all energy needs. While the most efficient solar panels on the market today have efficiency ratings as high as 23%, the majority of panels range from a 15% to 20% efficiency rate.

Do you own solar panels?

You OWN the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee, which usually covers the solar panel and battery installation, repairs and maintenance.

What if I don't get free solar panels?

If you aren't eligible for free solar panels, you can still save money through group-buying schemes such as Solar Together, or solar panel subscriptions from installers like Sunsave and Effective Home.

Are solar panels a good investment in the UK?

Although anyone in the UK can potentially benefit from a solar array installation, there is no doubt that your location can impact the amount of sunlight your panels will receive each year and therefore the amount of energy they can generate.

However, even if a solar panel business leases solar panels, their profit will depend entirely on the number of panels they have installed. A typical profit margin in this business is about 6 percent ...
