Who pays for solar energy in Bermuda?

The Bermuda Electric Light Company Ltd (Belco) has been ordered to pay for all solar energy put into its system by those with solar panels. Those who have been putting electricity into the energy grid without being reimbursed will receive backdated payments.

What is our vision for Bermuda energy?

Our vision is an efficient Bermuda powered by affordable renewable energy. Our mission is to help every home and business in Bermuda reduce their energy bills and greenhouse gas emissions through the use of energy efficient and solar energy technologies.

Is Bermuda a suitable location for solar energy?

Bermuda is a suitable location for solar energy in several ways. Approximately 10,000 rooftops in Bermuda (out of a total of about 36,000 rooftops) are good candidates for rooftop solar because they face south and are not obstructed by trees or other buildings.

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.
