Background PV/diesel microgrids are getting more popular in rural areas of sub-Saharan Africa, where the national grid is often unavailable. Most of the time, for economic purposes, these hybrid PV/diesel power plants in rural areas do not include any storage system. This is the case in the Bilgo village in Burkina Faso, where a PV/diesel microgrid without any ...

Burkina Faso also happens to be one of four pilot countries of the SERVIR-West Africa program, which launched in July 2016. The country's forests are quickly degrading and shrinking; therefore, the first SERVIR service in Burkina Faso focuses on resource management, land use, and restoration. Admiring the lush, Flamboyant Trees around Ouagadougou
