What are the best solar generator brands?

ALLPOWERS is another one of the best solar generator brands for those looking to save money, as its cheapest kit is priced at \$249. Our choice, the 2,000W power station is a good option for trips off-grid; it can charge 11 devices at a time and it's rated IP66, so it should survive strong water jets.

What is the best solar generator for home backup?

The Renogy Lycan is one of the largest and most capable solar generators in the market right now. It's designed to be wired to a home power grid. You can even set it up as a UPS, ensuring essential appliances stay powered in a blackout. That, plus its fast charging performance makes the Lycan 5000 one of the best solar generators for home backup.

Which solar generator kit should I buy?

If you want a complete home backup solar generator kit that's ready to use, I recommend this EcoFlow Delta Max solar generator + 220W solar panel combo. It's enough to keep your most essential appliances powered and devices charged during an extended blackout. Complete solar generator kit with foldable solar panel.

What is the most powerful solar generator?

Heavy and bulky. The EcoFlow Delta Pro is one of the most powerful solar generators in the market. With an output of 3600W, it can power just about any appliance in your home including large ones like the oven, space heater and AC. It can also power multiple appliances at the same time.

What is the biggest portable solar generator?

The biggest portable solar generator from Jackery easily found its way to my list. The 2.16 kilowatt-hours of capacity are enough to power a full camping setup for a few days. And if you hook the 2000 Pro to six 200W solar panels, you can get it fully charged in less than 3 hours.
