

This is clearly not the situation discussed in *Ross v. American Express Co.*, 547 F.3d 137, 148 (2d Cir. 2008), one of the principal cases relied upon by the court. Nor does PRM allege the sort of interdependent and concerted misconduct discussed in *Donaldson* sufficient to place the claims within the scope of the arbitration clause. *Donaldson Co., Inc. v. Burroughs* ...

PRM Energy Systems, Inc. is the developer and owner of the PRME Biomass Gasification Technology. PRME has gasified more biomass than all other gasification technologies combined. Our systems are successfully operating in high demand industrial applications on five continents converting over 10.0 million tons of biomass and other waste fuels to ...

The project is supporting Brazil in making use of the enormous potential for renewable energy and energy efficiency. To this end, it advises ministries, authorities, banks and public institutions on strategy development and supports the establishment of management and cooperation structures.

In *PRM Energy Systems, Inc. v. Primenergy, LLC*, 592 F.3d 830 (8th Cir. 2008) the Eighth Circuit held that a non-signatory to a contract containing an arbitration agreement could require a signatory to arbitrate under certain limited circumstances. Summary of this case from *Wolfe Elec. Co. v. Corporate Bus. Solutions, Inc.*

Brazilian oil and gas giant Petrobras has awarded Alcatel Submarine Networks (ASN) and Maersk Supply Service (MSS) with a contract for the supply and installation of a permanent reservoir monitoring (PRM) system on a field located in ...

Mero is Brazil's third largest field by volume of oil in place, behind only Tupi and Buzios, also located in the pre-salt Santos Basin. Production on the field started on 30 April 2022 through the FPSO Guanabara. This January, Petrobras disclosed that the FPSO had reached its maximum production capacity, with the mark of 180,000 barrels of oil per day (bpd).

PRM Energy Systems, Inc. is the developer and owner of the PRME Biomass Gasification Technology. Supplier of Gasification Systems worldwide for most types of waste fuels, agri/forest residues, coal, pet coke, low grade coal, lignite, and sludges.

The Brazilian oil and gas company Petrobras has awarded Alcatel Submarine Networks (ASN) and Maersk Supply Service (MSS) the contract for the supply and installation of a Permanent Reservoir Monitoring (PRM) system on the giant Mero field offshore Brazil.
