Who is the largest producer of solar energy in India?

As per Saur Energy International, ACME Solar Holdings is the undisputed largest producer of solar energy in India. It has an installed base of over 2.9 Giga-Watts (GW). The Solar Group in India finished at the top position in both 2018 and 2019 years respectively.

Why did a leading energy company decline a move into offshore solar?

A leading energy company recently declined a move into offshore solar because of the saltwater consideration, which massively affects the durability of the system. PV modules, the key component in solar systems, are not designed for salty environments. Even when PV modules are located onshore but near to the sea, corrosiveness can be a problem.
