

Brunei enerSys sbs c11

What makes EnerSys SBS a good battery?

The advanced thin plate, pure lead technology and unique manufacturing methods, used by EnerSys, make PowerSafe SBS batteries the choice for long and trouble-free service. PowerSafe SBS EON Technology™ batteries have been developed to provide high cycling and fast recharge performance in applications where the power supply is erratic.

What are SBS C11 powersafe batteries?

SBS C11 PowerSafe batteries are manufactured to the highest international standards. PowerSafe SBS batteries also offer high resistance to heat and lower internal resistance to support higher rate charging and discharging. o Utilizes TPPL technology.

What is the capacity of a powersafe SBS battery?

Capacity range: 31 - 190Ah 12V monobloc configurations Multiple string configurations available Two year shelf life SR-4228 compliant Proven long service life High energy density and cycling capability The outstanding PowerSafe SBS Front Terminal battery further extends the technical leadership of PowerSafe SBS batteries range.

What is a powersafe SBS Eon battery?

PowerSafe SBS EON Technology™ batteries have been developed to provide high cycling and fast recharge performance in applications where the power supply is erratic. PowerSafe Front Terminal battery models are designed for installation in cabinets and racks.

What is a powersafe SBS front terminal battery?

PowerSafe SBS Front Terminal batteries retain the benefits of Thin Plate Pure Lead (TPPL) technology such as long-life, high-energy density and superior shelf life. They also deliver exceptional cyclic performance in both float and fast charge applications, even in the hottest and harshest operating environments.

What type of battery does EnerSys use?

Front terminal batteries use tin-plated copper terminals. Top terminal batteries use a copper alloy insert. Approved as non-hazardous cargo for ground, sea and air transportation. Please see our SDS for complete packaging requirements at 8hr. Rate 1.75Vpc 10hr. Rate 1.80Vpc © 2019 EnerSys. All rights reserved.
