Why should Burkina Faso build a solar power plant?

The construction of the solar power plant is anticipated to substantially boost the electricity supply for the Burkina Faso population and position Burkina Faso as a key player in the realm of sustainable development.

How much electricity does Burkina Faso produce?

Burkina Faso is only able to produce 60 percent of the electricity it consumes. The remaining 40 percent is imported from neighboring Ghana and Ivory Coast. The output of this power plant is intended to reduce that energy deficit. In November 2017, there were plans to enlarge the power plant by another 17 megawatts to a total of 50 megawatts.

Who owns Burkina Faso's new electricity plant?

Burkina Faso's national electricity company, Sonabel, will operate the plant and buy electricity at \$0.06/kWh according to the AFD. Commissioning of the plant comes at a time when Burkina Faso is heavily reliant on electricity imports from Côte d'Ivoire and Ghana.

How many solar power plants are in Burkina Faso?

"Burkina Faso: 2 solar photovoltaic power plants (68 MWp) inaugurated in Koudougou and Pô" . Afrik21.africa. Paris, France. Retrieved 5 January 2024. ^Jean Marie Takoueu (25 October 2021). "Burkina Faso: Africa Ren launches the construction of the Kodenou Solar plant in PPP" . Afrik21.africa. Paris, France. Retrieved 31 October 2021.

Will a 50 MWp solar power plant bolster Burkina Faso's electricity supply strategy?

In a pivotal move to bolster Burkina Faso's electricity supply strategy, the Minister of Energy, Mines, and Quarries, Simon-Pierre BOUSSIM, and Serge CONSEIGA, General Director of Energie Plus, sealed an agreement for the construction of a 50-megawatt peak (50 MWp) solar power plant in the commune of Komsilga, Burkina Faso.

Did Burkina Faso get a new solar power plant in Zina?

"Burkina Faso gets a new photovoltaic solar power plant in Zina" . Afrik21.africa. Paris, France. Retrieved 28 May 2024.
