

Byd photovoltaic panel manufacturer

Is BYD developing a bifacial solar panel for agrivoltaics?

Chinese battery and solar module manufacturer BYD has recently developed a bifacial photovoltaic panel for agrivoltaics, a company spokesperson has told pv magazine. The company developed the new "Bem-te-vi" panel at the BYD module factory located in Campinas, near Sao Paulo, Brazil.

Where is BYD bifacial monocrystalline solar panel made?

At pv magazine since June 2021, she writes about business, policies and technologies for solar energy in the country. Chinese module maker BYD is producing a new bifacial monocrystalline panel at its manufacturing facility in Sao Paulo, Brazil. The module has a power output of up to 355 W and a conversion efficiency of 16.33%.

Who manufactures BYD solar panels?

BYD, which stands for Build Your Dreams and was founded in 1995, is a mid-sized manufacturer of solar panels. They produced approximately 1.5 gigawatts in 2016.

Where will BYD agrivoltaic panels be deployed?

BYD will deploy these new panels at a 100 kW agrivoltaic array at the Federal University of Santa Catarina (UFSC) in Brazil. Pozzonbon said commercially the panels will be offered as an "integrated energy solution" alongside inverters, battery storage systems and electric trucks.

Why should you choose BYD solar panels in Brazil?

"Following the establishment of the solar panel factory in Campinas, much of the emerging solar market in Brazil has opted for BYD products for their quality, technology and delivery capability. Having reached almost 1/3 of the national market is a proof of our excellence.

What is the power output of a bifacial photovoltaic module?

The module has a power output of up to 355 W and a conversion efficiency of 16.33%. Chinese battery and solar module manufacturer BYD has recently developed a bifacial photovoltaic panel for agrivoltaics, a company spokesperson has told pv magazine.
