

Canada prima solar

Who is Canadian Solar?

Over the past 23 years, Canadian Solar has successfully delivered over 125 GW of premium quality, solar photovoltaic modules to customers. Since entering the project development business in 2010, Canadian Solar has developed, built, and connected over 10 GWp of solar power projects and 3.3 GWh of battery energy storage projects across the world.

How much solar power does Canada have?

The past two decades have been marked by the significant growth of installed capacity for solar photovoltaic power, which in 2022 reached 6'452 megawatts. Canada generated around 4,323 gigawatt-hours of energy from solar power in 2022, which provided enough electricity to power over 470,000 typical Canadian homes.

How many patents does Canadian Solar have?

Launched the SolBank, a proprietary designed and manufactured energy storage battery solution for utility-scale applications and the EP Cube, a lightweight and sleek all-in-one residential energy storage solution in Sept. 2022. By the end of 2024 March, Canadian Solar has 2,231 authorized patents worldwide.

What business segments does Canadian Solar have?

Canadian Solar has two business segments: CSI Solar and Recurrent Energy (formerly Global Energy). Canadian Solar's PV panel modules have very strong attractiveness in terms of their cheap price. This allows us to sell products to small enterprises. We use these panels in our installations because they are really good products.

Is Canadian Solar a good choice?

Overall, Canadian Solar is a popular choice among homeowners looking to invest in solar energy. Canadian Solar offers higher efficiency (up to 23%) and wattage (380W to 705W) panels at a lower average cost, but with shorter warranties on most models (12 years).

Does Canadian Solar offer bifacial solar panels?

For commercial and industrial markets, Canadian also offers a bifacial solar module called the BiHiKu. For residential use in the United States, Canadian Solar offers three main solar panel module series: HiKu, HiKu6, and HiKuBlack. Here's some information about each of these products: Canadian's HiKu solar panels are their stock-standard offering.
