

What is Liebert gxt3 t230?

This true on-line double conversion UPS system is available in two different 10000 VA versions featuring an integrated maintenance bypass, as well as optional extended battery back up time. Liebert GXT3 T230 is the standard version free of integrated isolation transformer which can be configured as either 1/1 or 3/1, providing increased flexibility.

What kind of power does Liebert gxt3-10000t230 use?

Sensitive electronic equipment operates best from sinewave power. For ease of use, the Liebert GXT3-10000T230 features an LCD display for comprehensive user indications and programmable controls. It also provides self-diagnostic tests.

How do I connect the Liebert gxt3-10000t230 to the mains?

1. With the Liebert GXT3-10000T230 connected to the mains, press the Menu button, select Control and press OK. The Liebert power protection customer service centre is fully equipped to deal with such batteries, in accordance with the law and with the greatest respect for the environment.

What SNMP/web cards are available for the Liebert gxt3?

Several option cards are available for use in the Liebert IntelliSlot port of the Liebert GXT3. The Liebert IntelliSlot SNMP/Web Card provides SNMP and Web-based monitoring and control of the UPS across the network.

Does the Liebert gxt3 have a battery?

The Liebert GXT3's battery has been fully charged before delivery, but some charge will be lost during storage and shipping. To ensure that the battery has adequate reserve power to protect the connected load, charge the battery for three hours before putting the UPS into service. ____1.

How do I connect my Liebert gxt3 to my ups?

The current limited source for this optocoupler (+12VDC, 50mA) will be available from UPS. The connection to the Liebert GXT3 for remote connection will be via terminal block connector. Battery Mode Shutdown wiring must conform to all national, regional and local wiring codes and laws. This signal must last for 1.5 seconds or longer.

Vertiv's Liebert GXT3 is designed to provide higher power capacity in applications with limited floor space. This fully online double-conversion UPS system is a 10000 VA power-rated model with an integrated maintenance bypass and optional extended battery backup duration.
