King says the Cook Islands has its own commitment to meet its challenge of 100 per cent renewable energy by 2030. Local environment group Te Ipukarea Society earlier said that facilitating the general public to install grid tied domestic solar systems on their home would help the Cook Islands achieve this 100 per cent renewable energy.

Renewable energy in the Cook Islands is primarily provided by solar energy and biomass. Since 2011 the Cook Islands has embarked on a programme of renewable energy development to improve its energy security and reduce greenhouse gas emissions, with an initial goal of reaching 50% renewable electricity by 2015, and 100% by 2020. The programme has been assisted by ...
