tiko Energy Solutions was founded in 2012 following the accident in Fukushima after Swisscom, one of today's investors, was asked to contribute to the energy turnaround in Switzerland with the goal to get 100% of our energy from renewable sources and thus, prevent such nuclear accidents.

This brings multiple advantages, for the owner of the asset an award-winning Smart Home Energy Management system, the possibility to connect several assets into communities and microgrids and latest the integration into a Virtual ...

The aggregation of all connected homes enables the creation of virtual energy plants. tiko, a Swiss startup established in 2012, has developed a unique technology for exploiting the full potential of electrical equipment (water heaters, heat pumps, solar panels, batteries, electrical outlets etc.) that may be present in most individual homes ...
