

Djibouti outdoor solar power station

Will AMEA power build a solar photovoltaic plant in Djibouti?

Emirati independent power producer (IPP) AMEA Power has signed agreements to build a solar photovoltaic plant in Djibouti. With a capacity of 30 MWp, the construction of the solar plant will be done in the framework of a public-private partnership (PPP).

Why is Djibouti constructing a solar farm?

Djibouti's \$390 million solar farm is under construction in southern Djibouti as a result of a public-private partnership between Djibouti's Ministry of Energy and Natural Resources and Green Enesys, a German renewable energy firm. Construction began in 2018 after \$50 million in funding was secured by the World Bank and other financiers.

Does Djibouti have geothermal power?

Djibouti currently has just over 100 MW of installed generation capacity, but only 57 MW is reliably available to serve a population of 940,000 and its key industries. Geothermal resources in Djibouti have been recognized for years, and exploration activities are currently underway to identify economic vapor resources.

What is AMEA power's 25-year PPA for Djibouti?

Dubai-based AMEA Power has secured a 25-year PPA from Djibouti's state-owned utility, *Electricité de Djibouti (EDD)*, for a 25 MW solar-plus-storage plant it plans to build in Grand Bara, south of the national capital. The solar plant is the country's first IPP project and will be developed under a BOOT model.

What is a power purchase agreement (PPA) in Djibouti?

AMEA Power has secured a power purchase agreement (PPA) for a 25 MW solar-plus-storage project in Djibouti. It will be the country's first independent power producer (IPP) project and is now in development under a build-own-operate and transfer (BOOT) framework.

Will AMEA Power Invest in Djibouti's first IPP project?

The solar plant is the country's first IPP project and will be developed under a BOOT model. "The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder," AMEA Power said, without providing additional details.
