Should you invest in solar energy stocks in 2024?

Investing in solar energy stocks in 2024 presents an opportunity due to several factors. The global push for renewable energy sources intensifies, with a heightened focus on combating climate change and reducing carbon footprints. Solar energy remains a pivotal component of this transition towards clean energy solutions.

Why are solar energy stocks growing?

The industry's technological advancements and decreasing production costs make solar energy increasingly competitive against conventional energy sources. In addition, government incentives, supportive policies and increasing consumer demand for sustainable energy further drive the growth prospects of solar energy stocks.

What are the best solar stocks to buy?

The best solar stocks to buy include NextEra Energy, First Solar, Brookfield Renewable, Sunrun, and Clearway Energy. These companies are prominent players in the solar and renewable energy market, offering a range of investment opportunities in the growing sector of sustainable energy.

How did solar energy stocks perform in 2023?

Solar energy stocks took a beating in 2023. Global X Solar ETF (RAYS) and Invesco Solar ETF (TAN) are down 41.38% and 29.83% for the year, respectively. The high-interest rate environment made a bearish case for solar stocks throughout the year due to a demand drop among retail customers.

Is SunPower a good stock for 2024?

SunPower is committed to advancing renewable energy solutions and sustainability, aiming to create efficient and environmentally friendly solar energy systems for many customers. SunPower stands out as a prominent energy stock for 2024 due to its focus on renewable energy solutions, particularly solar power.

Are solar stocks a 'up-and-coming' stock?

Not every stock on this list will meet the definition of "up-and-coming." However, with the sector down so much this year, even established solar companies are seeing a downturn in their stocks. The clean energy transition may still have decades to go, but it's not going away. Here are seven companies that look like future solar stock winners.
