Which energy projects in Egypt have 900mwh battery energy storage systems?

energy projects in Egypt. 900MWh battery energy storage systems (BESS). Dubai, United Arab Emirates; September 12th, 2024: AMEA Power, one of the fastest-growing renewable energy companies, signs Power Purchase Agreements (PPAs) to develop largest solar PV in Africa and first utility-scale battery energy storage system in Egypt.

What is AMEA power doing in Egypt?

After the successful development of the 500MW Abydos Solar PV Project, AMEA Power has been awarded two new landmark renewable energy projects in Egypt. The first project, a new 1,000MW solar PV power plant with a 600MWh BESS in the Benban area, Aswan Governorate, will mark a historic milestone as the largest Solar PV and BESS project in Africa.

What is Egypt's Green Corridor Initiative?

The project is part of Egypt's broader "Green Corridor Initiative," which aims to increase the use of renewable energy and reduce dependence on fossil fuels as part of the country's efforts for sustainable development.

Did AMEA sign PPAs with Egyptian electricity transmission company?

AMEA power has signed PPAs with the Egyptian Electricity Transmission Company for both projects. The signing ceremony held on Thursday, September 12th, 2024, was attended by H.E. Dr. Mostafa Madbouly, Prime Minister of Egypt; H.E. Dr. Mahmoud Esmat, Minister of Electricity and Renewable Energy; and H.E. Mariam Al Kaabi, UAE Ambassador to Egypt.

This substantial investment in renewable energy, will not only increase Egypt's energy security and diversification but also contribute to the country's ambitious clean energy goals. Once commissioned, both projects will contribute to supporting the country, given the recent prolonged power outages in Egypt.
