

Enerwhere dubai Guinea

What does Enerwhere do?

Enerwhere provides reliable energy solutions for commercial- & industrial customers without a stable grid connection. Our modular, transportable solar-hybrid micro-grids power camps, construction sites, mines, oil & gas installations, islands, and resorts.

Who is the Chief Financial Officer of Enerwhere?

Currently, Alice, who is a Columbia University graduate and Fulbright Scholar with nearly 20 years of experience in distributed energy and renewable energy finance, serves as the Chief Financial Officer of Enerwhere. She has been with the company in senior roles since 2017.

Who is the new CEO of Enerwhere?

Alice is the new CEO of Enerwhere. She has been a respected and integral member of Enerwhere's leadership team for the last six years, with an impressive track record of driving disciplined planning, growth, and strategic decision-making. She is ideally suited to lead the company into its next phase of development.

Why should you choose Enerwhere?

Enerwhere offers a complete solution to clients with expertise in energy storage and power quality, ensuring clean power supply with grid like stability and reliability. Our solar-diesel hybrid systems dramatically reduce fuel consumption and operating cost of diesel mini-grids, while maintaining the same or better reliability.

Is NESR a good partner for Enerwhere?

Enerwhere, a proud UAE SME in the cleaner energy space, had a successful partnership with NESR, an oil services giant, on a project that resulted in 30% emissions savings and an aim for 50% savings by year end.

Dubai - Enerwhere recently completed the installation of a solar hybrid generator system for Multiplex" site offices at ICD Brookfield Place in the Dubai International Financial Centre. A first in the Middle East, the power system uses a combination of solar PV panels, batteries and generators running on biodiesel produced by Dubai-based Neutral Fuels.

At Enerwhere we are working hard to make the world a better place, one solar system at the time. Our team develops world-class solar energy solutions for emerging markets in the Middle East and Africa, using leading-edge technologies from around the world.
