

Is UkrEnergo a member of ENTSO-E?

Ukrenergo has also been made an Observer Member in ENTSO-E. EU Energy Commissioner Kadri Simson said: I welcome the decision by the European TSOs to open the electricity trade with Ukraine, following the successful emergency synchronisation in March.

How ENTSO-E & UkrEnergo are working together?

ENTSO-E and Ukrenergo have been working together since 2017 to achieve such integration. A notable milestone was reached on 16 March 2022 with the emergency synchronisation of Ukraine and Moldova with the Continental Europe power system.

Why did ENTSO-E complete synchronisation project with Ukraine?

In November 2023, ENTSO-E announced the successful completion of synchronisation project with Ukraine after the compliance by Ukrenergo with the key technical requirements necessary to enable a permanent interconnection between the power systems of Continental Europe and Ukraine. Mr Zbyněk Boldi, President of ENTSO-E, said:

Will ENTSO-E increase export capacity to Ukraine and Moldova?

WARSAW, Oct 29 (Reuters) - European power grid network ENTSO-E said on Tuesday it plans to increase export capacity to Ukraine and Moldova to 2.1 gigawatts (GW) from Dec. 1.

Why is NPC UkrEnergo joining ENTSO-E?

Mr Volodymyr Kudrytskyi, CEO of NPC Ukrenergo, said: The interconnection of the Ukrainian power system with the Continental European network and now the achievement of Ukrenergo's membership status in ENTSO-E is another important milestone for Ukraine on the path towards European integration.

Does the European Union support Ukraine in the energy sector?

The European Union continues to provide wide-ranging support to Ukraine in the energy sector, and will stand by Ukraine's side for as long as it takes. Tomorrow (Saturday, 16 March 2024) marks the second anniversary of the synchronisation of Ukraine's and Moldova's electricity grids to the Continental European Network.

Igneo Infrastructure Partners, a division of Australian asset manager First Sentier Investors (FSI), is seeking to acquire Spanish biomass energy firm Enso Energy Environment and Sustainability (Enso), sources familiar with the matter confirmed after a formal announcement of the acquisition was sent to the competition watchdog in Portugal.

The power systems of Ukraine and Moldova have been fully synchronized with the power grid of continental Europe ENTSO-E, in a pivotal moment in the history for the European energy market. The synchronization will open up opportunities for the development of the energy market of the two countries and it could provide a

reliable insurance in case ...

With the onset of Russian attacks on Ukraine's energy infrastructure, the synchronisation allowed Ukraine and Moldova to import electricity during the most difficult periods. By opening the possibility of Ukrainian electricity exports in June 2022, it demonstrated the significance of the interconnection for commercial exchanges between EU and ...

EU Energy Commissioner Kadri Simson said: I welcome the decision by the European TSOs to open the electricity trade with Ukraine, following the successful emergency synchronisation in March. The process will be gradual and done under clear conditions agreed with our Ukrainian partners, so that the energy security for the region will be ensured.

A strong year for Enso Energy. This is not the first planning win Enso Energy has had this year. In July, minister of state Matthew Pennycook granted planning permission for the 23MW Honiley Road Solar Farm, after it was "called in" by the previous secretary of state. The development will also include a 57MW BESS.
