

Epever com Greece

Who is epever?

Empowering the World with Solar Energy Since 2007, EPEVER has been at the forefront of the solar industry, providing innovative tools for efficient and reliable energy harvesting from the sun. Based in Beijing, we leverage a rich pool of talent to pioneer technologies that make solar power accessible everywhere.

What is epever & how does it work?

EPEVER products offer you a life of total independence in your RV or Boat, and also the ability to completely go off the grid with utmost energy efficiency. An integrated portable system used while going off-grid. It allows you to charge your mobile devices and provides you with lights.

What is epever solar Guardian PC software?

EPEVER Solar Guardian PC Software is a power station management system for EPEVER devices. Once devices are added, it enables users to monitor and adjust parameters, reducing maintenance costs and improving the efficiency of your solar power system.

Why should I subscribe to epever's newsletter?

Subscribe to our newsletter now! EPEVER is a global leader in off-grid solar industry, offering charge controllers, inverters, inverter chargers, solar power systems and more.

What makes epever batteries so special?

At the heart of EPEVER's lithium batteries lies the advanced LiFePO₄ cell technology, celebrated for its exceptional stability and prolonged lifespan. These features form the cornerstone of efficient and durable energy output.

Why should you choose epever?

EPEVER stands as a pivotal player in the renewable energy solutions sector, continuously driving innovation to foster a more sustainable and greener world. The introduction of our advanced lithium batteries represents a significant leap forward in energy storage technology.

EPEVER offers a broad set of cut-edge technology LED drivers commonly used in numerous LED indoor and outdoor lighting applications. We aim to maximize the performance of LED modules, and help reduce complexity and cost of LED lighting projects.

EPEVER presents a versatile range of lithium battery models, each meticulously designed to address specific energy needs. The range includes: EPEVER 12.8V 100Ah Lithium Battery (LFP1.28KWH12.8V-P20L1) Energy: 1280Wh; Nominal Voltage/Capacity: 12.8V / 100Ah; Cycle Life: ≥ 4000 cycles at 80% DOD
