

The national agency will fund A\$495,000 of the total A\$1.18 million expected cost of Monash University's study, exploring alternative energy market designs that could encourage investment into energy storage and ensure Australia gets the energy storage it needs to transition from centralised fossil fuel generation to renewable and distributed ...

Energy-Storage.news reported a while back on the completion of an expansion at continental France's largest battery energy storage system (BESS) project. BESS capacity at the TotalEnergies refinery site in Dunkirk, northern France, is now 61MW/61MWh over two phases, with the most recent 36MW/36MWh addition completed shortly before the end of ...

Contractors involved. Neoen is the developer of Brittany Battery Energy Storage System. Additional information. Neoen has won contracts for 13 MW of storage capacity in France under the call for long-term tenders organised by French power transport and distribution operator RTE (Régie Nationale de l'Électricité).

Albioma's project, which the company said was successfully commissioned in mid-March, is a 1.25MWp solar PV plant combined with 1.33MWh of energy storage at State de l'Est Jean Ivoula, a multi-use ...

A local government-owned utility in Australia's Northern Territory is set to go ahead with a 5MW / 3.3MWh battery energy storage system (BESS) in the town of Alice Springs. Territory Generation, owned by the ...

SMA Solar Technology AG and its subsidiary SMA Sunbelt Energy GmbH have installed French Polynesia's first integrated PV-plus-storage project. The project features an output of more than 1MW on the ...

This year has seen major energy storage deployment plans announced by telecommunications network operators in Finland and Germany, and substantial fundraises by ESS firms targeting the segment. Finland's ...

One of the state's three IOUs, SDG& E is bound by AB2514, California's mandate for the utilities to deploy 1.35GW of energy storage by 2020. SDG& E said it is aiming to deploy 330MW itself by 2030, while utilities ...

Image: Hitachi Energy. Hitachi Energy has won a tender to supply a large-scale battery energy storage system (BESS) in the Northern Territory, Australia. The 35MW BESS will enable cost savings for operation ...

Energy-Storage.news" publisher Solar Media will host the eighth annual Energy Storage Summit EU in

London, 22-23 February 2023. This year it is moving to a larger venue, bringing together Europe's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place. Visit the official site for more info.

Plans submitted by Black Mountain Energy Storage, its civil engineering partner Westwood and legal counsel Armundsen Davis in August put the system's sizing at 300MW output. Black Mountain Energy Storage CEO Rhett Bennett told Energy-Storage.news that this will be a 4-hour duration system, with 1,200MWh energy storage capacity.

Albioma's project, which the company said was successfully commissioned in mid-March, is a 1.25MWp solar PV plant combined with 1.33MWh of energy storage at State de l'Est Jean Ivoula, a multi-use stadium used mainly for association football (soccer) in the Saint-Denis municipality of Reunion, with capacity for 7,500 spectators.

The project will provide critical balancing services to the French electricity grid network and enable the replacement of fossil fuels with renewable energy. Harmony Energy CEO for France Andy Symonds said: "Developing and operating vital battery energy storage facilities across France, will lead to enhanced energy security, more affordable ...

The Winners Are Set to Be Announced for the Energy Storage Awards! Energy Storage Awards, 21 November 2024, Hilton London Bankside. Book Your Table. Archive, News. Cook Islands latest Pacific territory to use batteries and solar to replace diesel. By Andy Colthorpe. June 7, 2017. Asia & Oceania, Southeast Asia & Oceania. Grid Scale.

Battery energy storage developer Eku Energy has seen its development application for a 250MW/500MWh battery energy storage system (BESS) in the Australian Capital Territory (ACT), approved. The BESS, located at Williamsdale in the south of Canberra, is part of the ACT government's Big Canberra Battery initiative, which aims to deliver an ...

Powerfield's co-located BESS, the largest such one in the country, it claimed. Image: PowerField. A double-header of Netherlands news, with SemperPower and Corre Energy planning a 640MWh BESS at the latter's compressed air energy storage (CAES) site and Powerfield commissioning the country's largest co-located project.
