

The French Southern Territories are largely uninhabited, with the exception of scientific personnel and military personnel. The population varies from 150 to 310 people throughout the year, depending on the research activities. There are no permanent residents, and the people who do live there temporarily are mostly French scientists, engineers ...

Although not a polar country, France asserts historical ambition in polar regions. The French Southern and Antarctic Lands, or Terres Australes et Antarctiques Françaises (TAAF) in French, in the Indian Ocean, are a key component of this multimodal strategy. Map of the French Southern and Antarctic Lands

All of the islands of the French Southern Territories have large populations of penguin, albatross, and seals. Early-20th-century introductions of rats, cats, rabbits, pigs and goats have now mostly been eradicated but left their mark on ...
