GB Energy will "own, manage and operate clean power projects" across the UK, according to the Government. Backed by more than £8bn in public funds - paid for by a windfall tax on fossil fuel firms - it will ...

Well, it's not going to be a utility company, but rather an owner of renewable generating assets. If you listen to the marketing rhetoric from Labour and consider the - in my view - somewhat meagre £8.3bn of funding, it sounds like it's primarily solving the issue of the state ownership of energy assets and, as a by-product, supporting the target of reaching net ...

GB Energy welcomes the Victorian Government's introduction of amendments to the Offshore Petroleum and Greenhouse Gas Storage Act, to enable the offshore storage of natural gas in Victorian coastal waters. This is an important milestone for the Golden Beach project, which will provide much needed initial gas supply and subsequent storage infrastructure for the east ...

GB Energy will "own, manage and operate clean power projects" across the UK, according to the Government. Backed by more than £8bn in public funds - paid for by a windfall tax on fossil fuel firms - it will invest in clean energy technology as well as small to medium-sized renewable projects across the UK. ... "My understanding is ...
