

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

Are solar panels a good idea for Guernsey?

Credit: St Martin's Constables Office A Guernsey parish hall has installed solar panels on its roof in an attempt to reduce costs for ratepayers. St Martin representative, Constable David Beausire, told ITV News that adding the panels has come at little cost to local people but could bring long-term benefits.

What is the biggest solar project in Guernsey?

A decision on the application for the 8.33 acre farm, which is a similar size to eight football pitches, will be decided at a later date. Nick Crolla, head of sales and marketing at Rubis, told BBC Radio Guernsey: "It is going to be the largest solar project in Guernsey."

Will Guernsey achieve net zero emissions by 2050?

In 2020, the States of Guernsey set a target of a 57% reduction on 1990 emission levels by 2030 and agreed a 30-year energy strategy to reach net zero greenhouse gas emissions by 2050. Follow BBC Guernsey on X and Facebook. Send your story ideas to [channel.islands@bbc.co.uk](mailto:channel.islands@bbc.co.uk).

Will Guernsey be more sustainable and reduce maintenance costs?

The constables said they hoped the latest upgrade would make the parish "more sustainable and reduce maintenance costs". In 2020, the States of Guernsey set a target of a 57% reduction on 1990 emission levels by 2030 and agreed a 30-year energy strategy to reach net zero greenhouse gas emissions by 2050.

Will a Guernsey public toilet block run on renewable technology?

A Guernsey public toilet block is set to run on renewable technology as part of the island's commitment to reaching net zero targets. St Martin's Parish Hall and its adjoining outside toilet block have had solar panels installed as part of a push to move away from using electricity from the grid, officials said.

Guernsey Electricity has installed some of the largest solar arrays in the Channel Islands which feed more than 600kW of renewable electricity into the grid for everyone to use. Guernsey Electricity is committed to providing an affordable and sustainable energy supply, while maintaining a responsible attitude towards the environment.

Permitting and inspection processes ensure that a building is safe for solar and that the solar array is installed correctly and safely. Improving these processes can reduce solar soft costs by reducing the time and labor it takes for a solar installer/contractor to fill out and submit the forms and for a local government to process them.

At Solar Panels Network, we make solar panel installation in Guernsey an attractive process without compromising on its efficiency. All of the providers in our network have been thoroughly researched and vetted to ensure that they deliver the best design, installation, and services.

Most Employment Permits enable the holder to live and work in Guernsey for a fixed period of time but some people, because of the skills they have, will be invited to live in Guernsey for long enough for them and their immediate family [423kb] to become Permanent Residents.

Efficient and environmentally friendly, the use of solar PV or solar panels in Guernsey is on the up. A fantastic investment, they are a great way to reduce your carbon footprint and make your home or property more energy efficient and eco-friendly, whilst also offering a greater financial return than savings in the bank.
