What is the energy transition in Guernsey?

In Guernsey, we currently rely on fossil-fuel based systems of energy production and consumption and operate a thermal power station. However, it is recognised that as part of the response to climate change, there is a need to transition to an energy mix with limited, if not zero carbon emissions. This is often referred to as the energy transition.

How can Guernsey support a vibrant economy?

Supporting a vibrant economy - A clean, reliable, and affordable energy supply is a fundamental economic enabler. Establishing an environment for the development of on-island (including offshore) renewables will support the diversification and vibrancy of Guernsey's economy.

What do you like most about Smartech energy?

SMARTech energy have helped us to save energy and they've also helped us to improve the working conditions with the ventilation system they've installed. I like the fact that they're local to where I am which makes it easy because they can come to site regularly.
