Buildings running on solar energy. HI's teams began by installing fourteen solar panels and batteries on the Port-au-Prince guest house, i.e. the two buildings that house some of the team and staff on temporary assignments. They are now 100% equipped with solar panels, which cover a very large proportion of the infrastructure's electricity needs.

Haiti has the potential to become a renewable energy powerhouse. And it's taking steps to get there. The Haitian Parliament eliminated import tariffs and duties on solar equipment in September 2017. This is a stark contrast to the U.S., which in January 2018 imposed a 30 percent import tariff on Chinese solar panels.
