Heard and McDonald Islands socomec innovative power solutions

Power Technology spoke to Mauro Frizziero, IoT Program Marketing Manager at Socomec, and Patrick Fenner, co-founder and head of engineering at DefProc Engineering, to garner insights on the impact of IoT on the sector, and the possible trajectory for the future.

Founded in 1922 by French native Joseph Siat, Socomec Group has been at the forefront of electrical component manufacturing for nearly 100 years. As a family owned company, Socomec has always been committed to innovation and quality, which has resulted in ...

Cities house 50% of the world"s population (two thirds by 2050) and are responsible for 75% of its energy consumption. Socomec solutions encourage responsible energy usage and allow the district to be self-sufficient in terms of managing supply and demand.

Ensuring the availability and storage of high-quality power. With its wide range of continuously evolving products, solutions, and services, Socomec is recognized expert in the cutting-edge technologies used for ensuring the highest availability of the electrical power supply to critical facilities and buildings, including:

Socomec Innovative Power Solutions: Providing Innovative Solutions to Ensure High-Quality Performance. Founded by Mr. Joseph Siat in 1922, Socomec is an independent industrial ...

Socomec Innovative Power Solutions: Providing Innovative Solutions to Ensure High-Quality Performance. Founded by Mr. Joseph Siat in 1922, Socomec is an independent industrial group that imparts services related to Power Control, Monitoring, and Conversion of low voltage electrical installations.

The Australian subantarctic Heard Island and McDonald Islands (HIMI) Marine Reserve is among the world"s most remote MPAs with notoriously harsh oceanographic conditions, and yet the region"s rich mammal and fish resources have been exploited intermittently since the mid-1800s.
