

Hiku7 solar panel Rwanda

The HiKu7 CS7N-640-670MS, manufactured by Canadian Solar, is a high-performance solar module that offers exceptional power output and efficiency. With a power range of 640W to 670W, this module is designed to deliver maximum energy generation for residential, commercial, and utility-scale installations.

SOLEKTRA is a leading provider of clean renewable energy solutions such as Solar Home Systems, Solar Street Lights, Solar Mini Grids, Smart Solar Irrigation, Water Solutions and other groundbreaking technological solutions.

With a high efficiency of 21.4% and dimensions of 1,303mm x 2,172mm, this panel is ideal for utility-scale and large commercial solar projects. Provides exceptional power output with a rating of 605W and features advanced degradation mitigation technology for improved performance.

The Canadian Solar 605W Super High Power Mono PERC HiKu7 module is designed for utility-scale solar projects, offering high efficiency and robust performance. This panel is ideal for those looking to maximize energy output and reduce system costs, making it a top choice for commercial and industrial installations.

Due to size of the panels and the stacking orientation of the complete pallet (both length and width entries), fork lift truck on site is required to offload these modules. This product must be ...

Due to size of the panels and the stacking orientation of the complete pallet (both length and width entries), fork lift truck on site is required to offload these modules. This product must be installed by a qualified electrician/technician.

The Hiku7 CS7LMS from Canadian Solar is a high efficiency module with a maximum power of 610W, M12 (210mm) monocrystalline PERC type cells and minimal power degradation. It features a 12-year product warranty and a 25-year production warranty, ensuring long ...
