If your average gas generator costs about \$1000 a similar output solar generator is going to cost you somewhere close to \$2000 - and maybe even more. Solar generators have lower operating costs in the long haul to offset that initial expense, but it still a pretty big hit to your bank account right away.

How many solar panels would I need to power a 3 bedroom apartment? The amount of solar panels you would need does not depend on the size of the house. But the number of appliances you want to power and their capacity. However, if you want your solar panel to power two (1Hp) Air conditioners, Refrigerator, Tv, Washing machine, and a Microwave.
