

What is the German Energy Solutions Initiative?

Business partnerships with German companies in renewables and energy efficiency. The German Energy Solutions Initiative has the goal to encourage the use of renewables, energy efficiency technologies, smart grids and storage technologies and to improve economic, technical and political cooperation between Germany and partner countries.

How can Germany improve energy security?

By diversifying its gas supplies, reconsidering its stance on nuclear energy, revamping its green energy subsidy system, and streamlining its antiquated bureaucracy, Germany can set itself on a path of greater energy security and regain the strong and resilient economy that made it the envy of the world.

Why should you choose International Energy Solutions?

Now, through International Energy Solutions' Innovative Products and cost-effective structure, we deliver the same energy sources in a safe, reliable, modern and effective form.

What is IET - International Energy Transition GmbH?

IET - International Energy Transition GmbH also provides no-cost on-call expertise on clean energy policies to governments and regulators around the world through the Clean Energy Solutions Center. We work for a world offering sustainable energy solutions for all based on the diffusion of global best practice.

Why did Germany use natural gas?

As Germany's energy market liberalized, cheap Russian gas became a favored energy source for industry. Additionally, German leadership saw natural gas as a "transition fuel" between dirty coal and renewable, carbon-neutral energy sources, as well as a vessel for geopolitical ties between the European Union and Russia.

Why does Germany have a energy crisis?

Apart from a complacent reliance on Russian gas throughout its period of fast growth, Germany's energy policy faces a detrimental resistance to nuclear energy, a sluggish transition to green energy, and an incredibly slow bureaucracy, all contributing to the nation's energy crisis.

IET - International Energy Transition GmbH is a Berlin based consulting firm providing advisory services for the transition towards clean energy systems, integrating increasing shares of renewable energy sources. Our international network of consultants provides cutting edge research solutions. Our clients include ministries, regulators, international organisations, ...
