

iSun company Niger

What makes iSun unique?

iSun is more than just a solar company. For over 50 years, we've built the things required to advance the adoption of new technology...and have done the hard work necessary to make innovation commonplace. Of all the innovations we've enabled, none have been as important as the transition from dirty to clean energy.

Why is iSun important?

From the clean rooms that enabled silicone chip production, to the telecommunication installation services that connected industries and consumers to the internet, iSun has enabled the most important technological transformations of the last century.

What happened to iSun energy?
