

What is Kosovo's solar energy project?

The project is the largest solar energy investment in the district heating sector in the region and one of the largest solar power plants in Europe. As such, the project marks an historic moment on Kosovo's path towards a decarbonised energy system in line with the Paris Climate Agreement.

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Could solar power be used in Kosovo?

Different sources estimate different potential for solar and wind in Kosovo. These could be combined with Albania's existing hydropower to make a much more flexible electricity system, and in December 2019, the two countries agreed to set up a common electricity market.

How much will Germany contribute to Kosovo's solar energy project?

The EU's contribution to solar heating and electricity projects in Kosovo will total almost EUR56 million. "Germany has supported Kosovo in its transition from coal to sustainable energy and decarbonisation in accordance with the objectives of the Green Agenda for the Western Balkans," said Germany's Deputy Ambassador to Kosovo Matthias Conrad.

How will the EU support the energy transition in Kosovo?

The EU will support the energy transition and sustainable development of Kosovo through another 100-megawatt solar electricity project with the Kosovo Energy Cooperation. "The EU's contribution to solar heating and electricity projects in Kosovo will total almost EUR56 million.
