It features all historical weather data series we have available, including the Kuwait temperature history for January 2024. You can drill down from year to month and even day level reports by clicking on the graphs.

2022, winter started late around January and the way the weather is right now i am guessing it's going to be delayed even more. I have been eagerly waiting for an article in Arab Times or Kuwait Times about the winter here and gladly they uploaded one just yesterday saying that it will get colder the next few days but nothing as cold as it got before.

Some clouds may appear during these periods and thunder- rain are probable though rare. The average maximum temperature ranges from 45°C and 46°C centigrade. While the maximum temperature recording at Kuwait Int'l Airport was 51.3°C centigrade in 20 Aug. 1998 Transition period (1 September - 4 November)
