ICC-SRCC requires periodic inspections for the OG-100, OG-300, OG-400 and listing programs for solar thermal products. Listees are notified early each year whether an inspection will be required on a given year. New listees must undergo an inspection within 6 months of the award of the first certification or listing.

The objective of this report is to present comprehensive data relevant to the Lebanese PV market, highlighting the environmental impact of fossil fuels reduction, and the financial impact of PV systems integration, the most ...

ICC-SRCC was created by a group of states, SEIA and the Federal Government in the 1980's to address the need for quality and performance certification for solar thermal collectors and systems. ICC-SRCC has been recognized as the preeminent organization for solar thermal certification and rating for decades.

ICC-SRCC maintains compliance assessment marks for its accredited programs. Listees with current certifications and listings are authorized to display them on marketing materials, websites, and product labels. This webpage summarizes ICC-SRCC's marks and how they may be used. These requirements are also summarized in the Usage Guide for ICC-SRCC Marks. Certified ...
