

Longi photovoltaic panels a-level anti-counterfeiting

Who owns LONGi Solar Technologie GmbH?

The first firm is LONGi Solar Technologie GmbH, a newly established subsidiary of LONGi Green Energy Technology, a major supplier of solar modules based in Xi'an, and the second is a consortium controlled by Shanghai Electric Group, a state-owned enterprise that provides services on wind, solar and hydrogen.

Who is Longi Green Energy Technology?

Longi Green Energy Technology, the world's largest producer of solar panels, made headlines last week by announcing it has broken another world record for a product's energy conversion efficiency.

Who are Enevo group & LONGi Solar Technologie GmbH?

The opening of an in-depth investigation does not prejudice the outcome of the investigation. The first investigated consortium is composed of the ENEVO Group and LONGi Solar Technologie GmbH. ENEVO Group, the consortium leader, is a Romanian-based provider of engineering and consulting services.

When will the Commission take a decision about Enevo & LONGi Solar?

Both consortia submitted a complete notification on 4 March 2024. The Commission now has 110 working days as of that date to take a decision. The opening of an in-depth investigation does not prejudice the outcome of the investigation. The first investigated consortium is composed of the ENEVO Group and LONGi Solar Technologie GmbH.

Is Longi a 'father of photovoltaics'?

Longi's achievement will be included in the next version of the efficiency tables tracking the industry's progress, the Shanghai-listed firm quoted Martin Green, known in the field as the "father of photovoltaics", as saying at a ceremony to announce the record.

Solar panels under treatment suffered less reduction in stands to logic that they are better in the function. Decreased Maintenance Costs Solar panel cleaning labor can be expensive, ...

Confronting the Solar Manufacturing Industry's Human Rights Problem New report, "Sins of a Solar Empire," calls for solar industry to address unethical solar photovoltaic ...

the majority of Chinese solar panel exporters. The Commission reached its definitive conclusions on the solar panels anti-dumping and anti-subsidy investigations and, after consulting Member ...

investigation found that a Chinese solar panel is sold to Europe far below its normal market value. The duties will be imposed to alleviate the harm that is caused to the European industry by this ...
