Gecko Power Solutions is an engineering and consulting company specialized in Power Grids, HV & MV Substations, Power Generation and Industry projects. With our significant experience in the fields of electrical design and studies, control and protection systems, automation solution as well as metering systems we manage to deliver high quality ...

The plant is expected to increase Mali's effective base load electricity capacity by 25%, providing up to 4.5 million people with improved access to power and paving the way for new renewable ...

The plant is expected to increase Mali's effective base load electricity capacity by 25%, providing up to 4.5 million people with improved access to power and paving the way for new renewable energy facilities.

An off-grid hybrid energy system at Fekola, a gold mine in Mali, Africa, has gone online incorporating solar PV, battery storage and the site's existing fossil fuel generators, project partners Baywa r.e. and Suntrace have said.

Albatros Energy Mali (AEM) is Mali's largest and most efficient thermal power plant and the country's first independent power producer (IPP) project. The thermal power station is situated 12kms from the city of Kayes in close proximity to the village of Médine, western Mali.
