

Today, to be a player in the energy transition beyond its borders, the Monaco Government and the Monegasque Society of Electricity and Gas (SMEG) have combined their skills with the creation, at the end of 2017, ...

"The facilities, which are located in Côte-d'Or, Haute-Vienne, Landes and Gard, will generate a total of 65,000 MWh per year, or around 12% of the Principality of Monaco's electricity consumption." By the end of 2021, M.E.R. will own 15 photovoltaic power stations.

Monaco has partnered with France to build a massive solar park, marking a major leap towards its goal of sustainable energy. The photovoltaic park, located in France, will utilize the sun's power to generate clean electricity for Monaco, reducing its reliance on ...

In Monaco, it is possible to capture the energy of the sun in two ways: using photovoltaic panels, which transform sunlight into electricity, and with thermal panels, which use the energy produced by the sun's rays to heat water.

Monaco has partnered with France to build a massive solar park, marking a major leap towards its goal of sustainable energy. The photovoltaic park, located in France, will utilize the sun's ...

A giant solar power station has been inaugurated on the roof of Monaco's Grimaldi Forum, marking a significant milestone in the Principality's energy transition. Eventually, electricity generated from the station will be used to power the new eco-district.

"The facilities, which are located in Côte-d'Or, Haute-Vienne, Landes and Gard, will generate a total of 65,000 MWh per year, or around 12% of the Principality of Monaco's electricity ...

Today, to be a player in the energy transition beyond its borders, the Monaco Government and the Monegasque Society of Electricity and Gas (SMEG) have combined their skills with the creation, at the end of 2017, of Monaco Renewable Energies (MER).

In Monaco, it is possible to capture the energy from the sun in two ways: with solar photovoltaic panels, which transform sunlight into electricity, and with solar thermal panels, which use the energy produced by the sun's rays to heat water.

Monaco producing solar energy
