

2 ???· Montenegrin power utility Elektroprivreda Crne Gore (EPCG) will launch by the end of 2024 a project for the development of battery energy storage systems (BESS), the head of the company's board of directors, Milutin Djukanovic, said.

The Cyclone Plus Storage Phosphor System is a digital autoradiography system for quantitative imaging of radioactivity distribution in two-dimensional samples in contact with a phosphor...

The Cyclone® Plus Storage Phosphor System is an affordable personal imaging system for quantitative image analysis, designed to replace the more qualitative methods in film autoradiography. The storage phosphor screens used to capture the activity of the sample have a number of advantages over film. Phosphor screens have a much longer linear ...

The Cyclone® Plus Storage Phosphor System is an affordable personal imaging system for quantitative image analysis, designed to replace the more qualitative methods in film autoradiography. The storage phosphor screens used to capture the activity of the sample have a number of advantages over film.

Abstract:Because of Storage Phosphor System particularity,it was seldom used in agricultural research. In order to promote application of the Storage Phosphor System in the crop - soil system,in this study,we studied the relationship of the exposure time and pixels of scanned images in cotton - soil system using autoradiography.
