

The PCS (Power Conversion System) consist of converters, control system, transformer & switch gear (where needed). Thanks to its modular design we can quickly configure Power Conversion Systems for both large commercial & industrial plants as well as utility scale units with one of the highest power densities available on the market.

The first Made-in-Turkey generator ever supplied in the Turkish market, designed by Nidec ASI, will be installed on a 10 MWe geothermal power plant for EXERGY's customer Kiper Elektrik &retim A.?, part of Kipa? Holding group.

14 ???· A power pylon, File-Photo KABUL, Afghanistan -- Da Afghanistan Breshna Shirkat (DABS), the country's power distributor, announced Sunday that technical issues disrupting ...

Nidec Energy is a Joint Venture between Nidec Corporation (66.7%) and Freyr Batteries (33.3%). Established in December 2022, the company is focused on delivering state-of-the-art, low carbon batteries, racks and DC blocks for stationary energy storage systems.

General Electric (GE) has commissioned Turkmenistan's first combined-cycle gas turbine (CCGT) power station at Mary, a city on an oasis in the Karakum Desert. Built by Turkey-based Çalik Holding, the 1,600 MW CCGT is driven by four GE turbines and will be operated as a backup for the adjacent Mary hydropower plant.
