The Commonwealth of the Northern Mariana Islands (CNMI), situated in the Pacific's Philippine Sea, is home to 47,000 residents, with an economy that is heavily dependent on tourism. The energy landscape in CNMI is challenging given its near-total reliance on imported petroleum products for both electricity generation and transportation.

With the northern mariana islands enjoying year-round sunshine, solar panels have the potential to provide an unlimited amount of electricity for homes and businesses alike. In addition to being able to generate clean energy from a renewable source, many governments offer tax incentives or subsidies for installing solar panels which can make ...
