

Does Optim Energy offer free energy?

To date, Optim Energy has provided over 150 homes and schools with free energy. The Energy Efficiency Online Calculator (EEOC) is also designed by Optim Energy to help consumers determine how much energy their appliances are using.

Does Sierra Leone have access to electricity?

Approximately 89% of the population in Sierra Leone lacks access to electricity or gas. Firewood and charcoal are commonly used for light and heat, but they are also known to be sources of air and water pollution, as well as respiratory issues.

Does Sierra Leone have a high energy demand?

Sierra Leone's energy consumption has risen by 65% since the early 2000s (Awoko, 2017) but the existing energy systems in the country are still underdeveloped and unable to meet the high energy demand.

Why does Sierra Leone need a new electricity system?

The electricity infrastructure in Sierra Leone is outdated and needs to be updated, as even those connected to the grid can't rely on the power due to frequent power cuts.

Does Sierra Leone suffer from energy deficiency?

Despite the large number of energy development projects, over 89% of the Sierra Leone population faces energy deficiency (Vanguard, 2019). In Jalloh Terrace, the local community in the western rural district, firewood and charcoal were the only sources of light and heat for students studying or families cooking food.

How many mini-grid sites are being built in Sierra Leone in 2024?

In 2024, Sierra Leone is constructing and commissioning 17 of these mini-grid sites (800 kW). This work is made possible with the support of Sustainable Energy 4 All's Universal Energy Facility. Power Leone, founded in 2018, is Enercity's Sierra Leonean subsidiary. Power Leone stands as the cornerstone of Enercity's operations.

Infinitum Energy has set out to create a meaningful impact in the young and growing country of Sierra Leone by implementing a 1,000 ton per day, waste to energy facility. The facility will produce 30MW of clean, renewable baseload power, increasing the available power to the grid, operated by Electrical Distribution & Supply Authority, under ...

Sierra Leone private sector, while Government will provide the framework and the financial guarantee for implementing the framework. The Sierra Leone energy policy and the Agenda for Prosperity (AfP) (i.e. Poverty Reduction Strategic Paper III) highlighted the need for a renewable energy policy which would deal
