

Photovoltaic panel color steel tile fixing frame

Do you offer a plain tile solar panel fixing kit?

We offer plain tile solar panel fixing kits based upon 450mm rafter spacing and tile sizes. If your roof is different, then please advise. As the amount of brackets could alter depending on the spacing. Plain tile fixing kits for slate on roof solar panel sizes 2 to 16 panels can be used with all sized pv modules.

What are fastensol solar panel fixings & solar panel mounting rails?

Our range of Fastensol offers premium Solar Panel Fixings & Solar Panel Mounting Rails, a cutting-edge solution for efficient solar installations. These high-quality components ensure secure panel attachment and easy alignment, maximising energy output.

Can I install a PV system on a tiled roof?

Both systems are available as top-fix and side-fix. In short: the mounting of the rail system on the tiled roof can be done from above as well as from the side. But no matter which of our pitched roof mounting systems for installing a PV system on a tiled or plain tile roof you choose: all systems are particularly easy and efficient to install.

Can solar PV be installed on a flat roof?

To install solar PV on south facing flat roof we would use a ballasted system. This means the roof is not penetrated (which would let in water on a flat roof), and the system is unable to be lifted or tipped over by the wind. The triangular mounting frames are preassembled and placed on aluminium feet.

Are solar roof tiles a good choice?

Solar roof tiles are undeniably the most attractive way of incorporating solar PV into a roof, and are a great product to use on high-end building projects. Solar roof tiles are simple to install and can be installed by a conventional roofer.

How do you install solar PV on a slate roof?

See a case study of a tiled roof [here](#) To install solar PV on a slate roof, our installers would use solar limpets. They drill through the slate into the rafter using two fixing holes, sealant is applied to the fixing holes and the base of the limpet. The solar limpet is then screwed onto the roof.

Links to associated roof solar bracket fixing products: Pan tile solar rail fixing bracket: Pan tile bracket flashing kit: Stainless steel T bolt and serrated nut set: Stainless steel bracket fixing ...

The building integrated roof mounting PV (BIPV) panels were installed within a few hours, ready for the tilers to fit the adjoining tiles and crack on with the rest of their work. Hooking up the electrics and installing the smart ...
