

What should a solar panel quote include?

Most importantly, your solar panel quote will estimate the overall cost of your solar panel system. This will include a breakdown of both material and labour costs, so you have a better idea of where your money is going. When it comes to buying solar panels, most homeowners have one thing at the forefront of their minds: the price.

How do solar panel quotes work?

Solar panel quotes typically include an estimate of how much money you could save on your energy bills. This projection will be based on your annual electricity consumption, so bear in mind that this could change if you start to consume more electricity after the solar panels are installed.

What is included in a complete solar panel installation?

Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the following: Solar panel brackets. Solar panel inverter. Solar panel brackets. Installation i.e. labour costs of the installer. Cost of the solar battery storage system (although this is optional).

How do I compare solar panel quotes?

So if you're comparing solar panel quotes, it's important to check that the installer and manufacturer are MCS certified, which will prove they can provide you with top-quality service. Unlike the Gas Safe Register, MCS accreditation is not a legal requirement for solar panel installers.

What factors influence a solar panel quote?

When considering installing solar panels, several aspects of your property influence the quote such as: The orientation and angle of your roof relative to the sun play a crucial role in determining the efficiency and output of the solar panels.

What do I need to know before installing solar panels?

The type of solar panels you install. The brand of the solar panels. The total number of solar panels you are installing. Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the following: Solar panel brackets. Solar panel inverter. Solar panel brackets.
