For renter-friendly solar panels, consider portable options that don't require mounting. Jackery SolarSaga 100W panels are a great choice. They are portable, foldable, and easy to set up on your balcony or near a sunny window. Pair them with a solar generator like the Jackery Explorer 240 to store energy and power

A community solar project is a large, central solar power plant, whose electricity is shared by more than one property. While the size of a residential solar installation is measured in kilowatts, community solar projects are measured in megawatts, meaning that a single community solar project can power hundreds (or even thousands!) of properties - both rented and owned.
