

Price of JA Solar 700W photovoltaic panel

How much do JA Solar panels cost?

The cost of solar panels from JA Solar is quite competitive compared with other solar panel companies. Our research has found that a 585W panel, for instance, is priced at around £90. Sharp sells a similar model for around £40 more. However, JA Solar's product warranties only last 12 years - half that of many other manufacturers.

What is a JA Solar JAM54D41-435/LB?

The JA Solar JAM54D41-435/LB is a 435W all-black solar panel from the Deep Blue 4.0 Series. This N-type bifacial double glass mono module has excellent efficiency and temperature coefficient. Panels in this range are protected by a 12 year product warranty and a 30 year linear power output warranty.

Which JA Solar panel is best?

JA Solar's JAM60S20 panel offers high efficiency of 21 per cent and a power output of 340W, for a lower price tag than many of its competitors. Meanwhile, the JAM72S30 LR solar panel stands out for larger homes, as it boasts an impressive power output of 585W, which is a greater output than most domestic panels.

What types of solar panels does JA Solar offer?

These include solar panels for homes and commercial installations. JA Solar offers two main types of solar cell technologies - Passivated Emitter and Rear Cell (PERC or P-Type) and N-Type.

Is JA Solar a Tier 1 manufacturer?

JA Solar is classified as a Tier 1 manufacturer by BloombergNEF. This means it employs state-of-the-art robotic techniques to oversee the production process, minimising or completely eradicating errors associated with human intervention. Tier 1 panels are also crafted from the highest quality silicon, boosting the solar panel's performance.

How reliable is JA Solar?

Since 2017, JA Solar has consistently scored in the 'Top performer' category of the DNV GL/PVEL PV Module Reliability Scorecard report. DNV GL is a leading authority of independent energy experts, and PVEL conducts independent PV testing. This annual report identifies 20 high-performing solar panel manufacturers.

A 4kW solar panel system is suitable for the average home in the UK and costs around £5,000 - £6,000.; The estimated average yearly savings you can expect with a solar panel system range from £440 to £1,005.; If you install a 4kW ...
