

Bouygues Energies & Services, a subsidiary of Bouygues Construction, built the thermal power plant on the Caribbean island of St Martin. The design-build contract signed with EDF comprised engineering studies, procurement, transport and the commissioning of the plant. It now provides power for the French half of the island.

Electricity in Saint Vincent and the Grenadines - voltage and frequency. All power sockets in Saint Vincent and the Grenadines provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Saint Vincent and the Grenadines if the outlet voltage in your own country is between 220V-240V.

6 ???&#0183; When you are going on a trip to Saint Martin, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like? In Saint Martin, types C and E are the official standards. Saint Martin has standardized on the same plugs and receptacles as France, just like all other French overseas ...
