8. It is important to recognise that all the neighbouring power systems operate asynchronously, and through

their exports oblige Afghanistan to operate six separate power systems each synchronised with its neighbouring supplier. While this has helped Afghanistan grow its electricity sales over the last five years, asynchronous supplies

In August 2021, as foreign troops departed, Taliban insurgents seized power in Kabul, bringing the country back under their rule. In this Q& A, Crisis Group expert Graeme Smith, drawing upon Crisis Group's research across Afghanistan, assesses the regime's record and its implications for international policy.

War-torn Afghanistan is taking small steps to restore its power sector, which is in a shambles like its economy. Due to international isolation following the political crisis arising from the takeover of Kabul by the Taliban in ...

The majority of electricity in Afghanistan is imported. The Naghlu Dam is one of the largest dams in Afghanistan, which provides some electricity to Kabul Province, Nangarhar Province and Kapisa Province. Aerial photography of Kandahar at night in 2011. Energy in Afghanistan is provided by hydropower followed by fossil fuel and solar power. [1] Currently, less than 50% of ...
