

I has bought a new saxophone and I decide to keep it and do not use it for a few years (until my current saxophone retire.) I will keep it in the original case in house (extreme room temp is around +10 ~ + 35 degree, high humidity)

Always store your instrument in its case (one that is dedicated to carry a sax) to avoid having it knocked over or being damaged by anything falling on it. When you are playing, keep your case next to you if you can, so ...

Playing saxophone well is all about making it as easy as possible, and that includes keeping your reeds in great shape. Proper saxophone reed storage is one of the keys to doing that. Keep reading below to learn more about how to store saxophone reeds.

Always store your instrument in its case (one that is dedicated to carry a sax) to avoid having it knocked over or being damaged by anything falling on it. When you are playing, keep your case next to you if you can, so that if you have to put the sax down, you are putting it in a protected place.

Transform the way you manage space in your music classroom with the Band Room Saxophone Case Storage Rack by A& S Crafted Products. This innovative solution is expertly designed to ...

Ideally, store your saxophone in a dry, cool place, away from direct sunlight, and with good air circulation. Avoid storing it in a basement, attic, or garage, as these areas are often prone to moisture and temperature ...

Ideally, store your saxophone in a dry, cool place, away from direct sunlight, and with good air circulation. Avoid storing it in a basement, attic, or garage, as these areas are often prone to moisture and temperature fluctuations.

Playing saxophone well is all about making it as easy as possible, and that includes keeping your reeds in great shape. Proper saxophone reed storage is one of the keys to doing that. Keep reading below to learn more about how to ...

All saxophonists should be aware of reed storage and longevity strategies since they play an important role in performance. Properly storing, rotating and reviving reeds will definitely make a difference in how well saxophonists perform and also how confident they feel when performing.
