We have been designing and installing solar systems of various sizes since 2005 after receiving basic solar training. Drawing from 15+ years of experience in the solar field, we will tailor the best solution for your energy needs. Our areas of expertise includes solar off-grid, grid tie, solar pumping and solar hot water systems.

The solar capacity has increased by 44% between 2011 and 2015 and now represents 8.5% of the electricity mix, with a production of 245 GWh. It is interesting to underline the fact that Reunion Island has already exceeded the 30% limit rate (Ministerial Decree of 23 April 2008) of RES penetration into its electricity grid. This achievement is ...
