Approximately 5,000 Great Lakes Energy (GLE) members are without power following restoration efforts through yesterday evening and this morning. GLE line crews from throughout the GLE service territory have been dispatched and are working to restore service for affected members. Contract crews and mutual aid support from other cooperatives are also ...

Saint Barthelemy: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

If renewable energy is important to you, but you don't have thousands to spend, GLE can help! Look into purchasing a subscription in our Community Solar program. Here's how it works: Cost: \$600/panel subscription upfront, or \$10 monthly for 5 years Credit of \$0.10/kWh generated, seen on your bill monthly 15-year agreement, cancellable at any [...]

Since energy is such a large contributor to CO 2, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor.

Energy transition: Installed capacity in 2019: 36 MW; Power generation in 2020: 121.1 GWh; Renewable energy generation capacity: 0.5 MW; Main energy policy(ies): Energy Code / Pluriannual Energy Programming (PPE) in development; Climate Change Resilience: Main climate change policy(ies): Area of marine protected areas: 98.3%

More than 13,000 Great Lakes Energy (GLE) members are without power following a blast of damaging winds and severe storm activity. All available GLE line crews have been dispatched and are working to restore service for affected members. Outages are reported across 16 counties throughout the Great Lakes Energy service territory. Areas most impacted ...

Less than 800 Great Lakes Energy (GLE) members are still without power following restoration efforts that began yesterday. Over the course of the last 48 hours, line crews have restored power to more than 20,000 GLE members. Line crews will continue their efforts until power has been restored to all members. Outages remain across 8 [...]

"The focus for Great Lakes Energy is to keep the lights on," Bill Scott, CEO of Great Lakes Energy states. "We are committed to keeping our employees, members and communities safe while still supplying the power our members depend on and deserve.
